PREDICTS RUIN FOR JAPAN.

General Shamowski a Russian general, was a through passenger on the S. S. Sierra yesterday for San Francisco. He has not taken any part in the fighting in Manchuria during the present war but is going home for assignment. He says that Russia is just beginning to fight and will have the flower of her army in Manchuria this year. He predicts that in her desire to become a world power, Japan will ultimately become involved with some other power and will have a downfall. He has been on leave of absence.

ST. VIGOR'S DANCE.

yields quite readily to the soothing and strengthening influence of Dr. Miles' Nervine, because it is a purely nervous affection. Even the chronic form, while often stubborn, is eventually cured by its persistent use. Sold by druggists on a guarantee that first bottle will benefit or money refunded.

The value of a trade mark can be readily seen when one has an article of merit. The word "Rainier" is a guarantee of excellence when applied to the products of the Seattle Brewing & Malting Co. Rainier Beer is unsurpassed.

WORK ON THE CANAL

THE CHIEF ENGINEER OF THE GREAT WORK TALKS OF WHAT IS BEING DONE AND OF THE VERY GREAT VALUE OF EXPERIMENTAL WORK—HE SAYS THE HEALTH OF AMERICANS ON ISTHMUS IS GOOD.

Chief Engineer John P. Wallace of the Isthmian canal commission says that there are now 5,000 men engaged in the construction of the canal. The work of installing an American plant at Culebra is going forward as fast as the machinery and supplies can be secured on the Isthmus, and when Mr. Wallace left there were six American steam shovels at work in the Culebra excavation, and arrangements have

CHIEF ENGINEER JOHN P. WALLACE.

been made to install additional machines at the rate of two a month. In the last ninety days laborers have been coming in freely from Costa Rica, Jamaica and the Barbados.

The health of the young Americans on the isthmus is particularly good. There has been very little sickness and comparatively few fatalities have resulted. Those that have occurred generally have been of persons who have led improper lives or who have been affected with some functional disorder. The employees from the states have been remarkably free from fever.

The work of installation of the plant and the organization of the force at Culebra is advancing rapidly, and each month the output of material is increasing. In the month of March it was three times what it was in December and five times the amount excavated in July.

The work of the sanitary department is beginning to show positive results. The water supply for the city of Panama will be available by July 1. Water supply systems also are being installed at various points along the line of the canal work. Several large hotels for the accommodation of the Americans are nearly completed, and Mr. Wallace states that it will be only a matter of a few months now before life on the isthmus will have practically all the comforts and conveniences that are obtainable in the states on a large work of this character. The employees are becoming more and more contented as conditions are improved, and there has continued to be a steady accession to the force.

Mr. Wallace says that every additional month he is permitted to continue his investigation and experimental work the more reliable will be the data available for use in deciding on a plan for the canal. He also emphasized the statement that thus far he has not committed himself to any definite plan beyond his official recommendations to the former Isthmian canal commission. He takes the ground that no plan should be adopted which would prevent the ultimate and economical construction of a sea-level canal, should such be decided on at any stage of the work, or even after the canal has been constructed.

In answer to a question as to the necessity of an immediate decision by the commission on a plan of construction, Mr. Wallace said that it would require about two years to manufacture and install the necessary machinery to complete the excavation for a canal at a sixty-foot level, work which would be necessary in any event. During this period ample time will be afforded for investigation and thorough analysis of all the elements or factors that go to make up the problem as a whole. In the meantime the excavation of the central Culebra cut, which is the controlling element both as to time and cost, will be pushed vigorously with the aid of modern American excavating machinery, which is being manufactured as rapidly as possible and sent to the isthmus. The investigations being conducted include diamond drilling work along the entire line of the canal, the character of the formation being revealed in this manner to a depth forty feet below the surface. The borings will give absolute information as to the character of the material to be encountered in the canal work. In addition, shafts are being sunk at certain points to reveal more fully the character of the formation.

Mr. Wallace places himself on record as in favor of the most complete and thorough investigation possible before final plans shall be adopted. In the meantime he says the work will be so prosecuted as not to delay the final completion of the canal, which shall be planned after all the consideration necessary has been given it.

A report covering all that has been done up to the first of February last was made to the former commission by the chief engineer and it is understood that it was largely on the information contained in this report that the engineering committee of the former commission predicated its recommendation for a sea-level canal. In his report Mr. Wallace did not actually recommend a sea-level canal, but held the same views then as now. As to the necessity of a tidal lock in a sea-level canal, Mr. Wallace said it was an undetermined question as to the real effect of tidal action in the operation of the canal, and one difficult to establish theoretically. A tidal lock might or might not be necessary. In any case one only would be required—on the Panama side several miles inland from the mouth of the canal.

Mr. Wallace is attending the daily meetings of the commission and

WOMAN'S SUFFRAGE IS DEFEATED

CONVOCATION OF THE EPISCOPAL CHURCH WILL NOT GIVE WOMEN THE RIGHT TO VOTE.

By a vote of fifteen to ten, last evening, the Convocation of the Episcopal church in session at St. Andrew's Sunday school room, defeated the amendment to the canons giving the right to women to vote in Parish meetings.

The amendment was recommended by the committee on legislation and was supported on the floor of the Convocation by Judge Henry E. Hightower, Rev. John Osborne, and Rev. W. H. Fenton-Smith. It was opposed by Canon Ault, Judge Stanley and others. The matter was considered in committee of the whole with Representative Greenwell in the chair.

The proposed amendments to more clearly define the status of the Vestry of St. Andrew's and the Dean and Chapter, were considered at some length, but action was deferred until tonight.

The all day meeting at St. Elizabeth's yesterday was exceptionally well attended. It began with the Holy Communion at 10 o'clock, Bishop Restarick being the celebrant. The sermon was by the Rev. John Osborne from the text, "She hath done what she could," and was a stirring address. The offertory amounted to about \$13, and on motion of Mrs. Harrison was appropriated to one of the Chinese congregations to help it to secure better quarters for church services. Following an appeal by Shin Yin Chin of Kula, Maui, for aid in building a church, \$250 was pledged, and a committee consisting of Rev. John Osborne, Canon Ault and Rev. W. H. Fenton-Smith was appointed to secure further funds.

Mr. Shin spoke in Chinese, but his face was so expressive, and his manner so earnest, that his hearers could almost understand what he said without the interpretation of Rev. Kong Yin Tet.

The Auxiliary of the Missionary District was organized with the following officers: President, Mrs. John Osborne of St. Clement's; vice-president, Miss Marie Von Holt of St. Andrew's; secretary and treasurer, Miss Castle of St. Andrew's. Reports of officers were made. Mrs. Brunson read a paper on "The United Offering." Mrs. Fenton-Smith on "The Woman's Auxiliary in Small Places." Miss Von Holt, on "The Junior Auxiliary." Mrs. L. F. Folsom on "The Girl's Friendly Society." Deaconess Sands on "Women's Work at St. Elizabeth's." Mrs. Kong, on "A Bible Woman's Work." Mrs. Charles L. Rhodes, on "The Triennial Convention at Boston." Reports were made from all the Parish and mission Auxiliaries, Mrs. Emery reporting for St. Andrew's and Mrs. Harrison for St. Clement's.

There will be a meeting of the Convocation this evening at 7:30 o'clock in the Sunday school room of St. Andrew's Cathedral. Tomorrow night there will be a reception to the Bishop and the visiting clergy at St. Clement's

MEETING OF THE WOMAN'S BOARD

IS LARGELY ATTENDED AND VERY INTERESTING IN ITS EXERCISES.

The praise and devotional service of the Woman's Board of Missions yesterday afternoon at Central Union church, was one of the largest attended meetings held during the year.

Mrs. Doremus Scudder presided. A number of ladies spoke during the meeting and notices were given of the coming departure for other parts of several members of the Board, the prayers of the Board being accorded to each.

Miss Sante, the young missionary in local Chinese work, who recently returned from a year's study in a missionary-preparatory school in Chicago spoke earnestly of her hopes and ambitions and the success she hopes to attain in her chosen work. She felt thankful to the members of the Board for the assistance they had rendered here to fit her for the work, and she believed that success would meet her efforts.

The thanks of the Board were expressed to Mrs. Belle Jones, as treasurer, who is shortly to leave for the mainland to reside. After a vocal solo by Mrs. Wehrich, and some prayers by Mrs. Coan, Mrs. Whitney and others, the meeting was closed with the singing of a hymn.

CIRCLE OF FORESTERS.

At a meeting held Monday, May 1, at San Antonio Hall by the Camoes Circle of Foresters, No. 240, the following officers were elected to serve for the ensuing term: S. C. C., M. C. Pacheco; J. P. C., Mrs. H. H. Williams; C. C., Mrs. M. A. Silva; S. C. C., Mrs. M. T. Marshall; R. G., Mrs. Nettie Fernandez; L. G., Miss Mary Ayilla; Treasurer, L. B. Medeiros; R. S., Mrs. G. M. Madeira; F. S., J. F. Eckart; I. G., Miss I. Castro; O. G., Mrs. H. J. Silva; Physician, Joao Pinto, Jr.

GREEN ACQUITTED.

Cyrus T. Green, was found not guilty of smuggling by the jury in Judge Dole's court yesterday. He was indicted with W. Treasurer of the schooner Mathew Turner, and Treasurer pleaded guilty some time ago. Green was defended by Cathcart.

Parish House, to which all church people and friends are invited.

On Sunday morning at 11 o'clock St. Elizabeth's memorial church will be dedicated.

This is what the United States Health Bulletin meant when they recommended Rainier Beer for purity and wholesomeness.
